PROFILE

I am a highly motivated software engineer with a BSc (Hons) in Mobile Computing. I strive to continually learn and develop professionally, embracing new challenges and opportunities with enthusiasm and dedication.

I am confident in my ability to collaborate effectively with others and bring my knowledge and skills to any project. I am eager to apply my expertise and help realize the potential of any project to ensure it reaches its full success.

WORK EXPERIENCE

Software Engineer Intern, Africa Code Academy
07/2021 to 11/2021

Partnered with other software developers at Africa code Academy to delivery required software and testing to ensure quality product.

Utilized HTML, CSS, JavaScript, Typescript and Chakra UI to create 100+ responsive Web applications.

Tested software for bugs, debugged and shipped projects without errors.
